# 2013 WORKPLACE AND EQUAL OPPORTUNITY SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

## *Introduction to the Survey*

The *Defense Research, Surveys, and Statistics Center* (RSSC)<sup>1</sup>, Defense Manpower Data Center (DMDC), conducts both Web-based and paper-and-pen surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. *Human Relations Surveys* are in-depth studies of topics and populations, often requiring both Web-based and paper-and-pen surveys.

This report contains tabulations of responses from the *2013 Workplace and Equal Opportunity Survey of Active Duty Members* (2013 WEOA) conducted April 15 to July 22, 2013. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,<sup>2</sup> and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.<sup>3</sup>

## **Survey Content**

The 2013 WEOA fulfills the Congressional mandate outlined in Title 10 U.S.C. 481(a)(2)(B) for Department of Defense quadrennial assessments of racial and ethnic issues and discrimination. The 2013 WEOA is the third DMDC active duty survey of racial/ethnic issues and was modeled on previous DMDC surveys of active duty and Reserve component members, the *2009 Workplace and Equal Opportunity Survey of Active Duty Members* (2009 WEOA) and the *2011 Workplace and Equal Opportunity Survey of Reserve Component Members* (2011 WEOR). These surveys were designed to estimate the level and consequences of racial/ethnic harassment and discrimination. The purpose of the Racial/Ethnic Harassment/Discrimination Rate is to provide the policy offices and Department with an overall estimate of active duty members who experienced behaviors aligned with racial/ethnic harassment and/or discrimination. This rate should not be used as an official crime index. A copy of the survey is provided on page 499. The current survey was subdivided into the following 10 topic areas:

1. *Background Information*—Service, gender, and race/ethnicity.
2. *Satisfaction and Retention Intention*—Years of service, retention intention, and overall satisfaction with military life.
3. *Tempo*—Deployed within the past 12 months and deployments to a combat zone.

---

<sup>1</sup> Prior to 2014, RSSC was called Human Resources Strategic Assessment Program (HRSAP). In 2014, DMDC reorganized and renamed the RSSC to better encapsulate the scope of research conducted by this group.

<sup>2</sup> Details on survey methodology are reported in DMDC (2013b).

<sup>3</sup> Refer to DMDC (2013a) to view a screen shot version of the survey as it appeared on the Web.

4. *Military Workplace*—Satisfaction with supervisor, work, and coworkers; mentoring, organization performance; readiness; morale; unit cohesion; and workplace hostility.
5. *Stress, Health, and Well-Being*—General health, perceived stress, and experiences of depression symptoms.
6. *Racial/Ethnic Experiences*—Types and frequency of personal experiences within the military community related to race/ethnicity; DoD's/Service's responsibility to prevent racial/ethnic harassment and/or discrimination; details pertaining to the most bothersome race/ethnicity-related situation experienced during the 12 months prior to taking the survey including type(s) of incident(s) experienced, where and when it occurred, characteristics of offenders, reactions to the situation, to whom behaviors were reported, reasons for reporting, satisfaction with the reporting process and outcome experience, retaliation for reporting, and reasons for not reporting.
7. *Personnel Policy and Practices*—Views on current racial/ethnic policies and leadership practices and perceptions of race relations within the military.
8. *Training*—Military training received in the past 12 months and perceived effectiveness of training on prevention of racial/ethnic harassment and discrimination.
9. *Social Perceptions*—Personal experiences of racial/ethnic confrontations and exposure to racist/gang messages and organizations.
10. *Military/Civilian Comparisons*—Perceptions of opportunities/conditions in the military compared to civilian employment, historical comparisons between military and civilian prevalences of racial/ethnic harassment and discrimination, and religion/religious preference.

### ***Population and Reporting Categories***

The population of interest for the 2013 WEOA consisted of active duty members of the Army, Navy, Marine Corps, Air Force, and Coast Guard excluding National Guard and Reserve members,<sup>4</sup> (1) who were drawn from the September 2012 *Active Duty Master Edit File (ADMF)* and, (2) are below flag rank.

Survey results are presented for the total DoD and Coast Guard populations and by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified by their responses to survey items and from data in DMDC's *ADMF*. If the self-reported data are missing, then *ADMF* is used to impute the subgroup classification at the time of sampling. Survey results are tabulated by Service, paygrade, gender, deployment, Service by race/ethnicity, and Service by paygrade. Definitions for reporting categories follow:

---

<sup>4</sup> Although the law does not require quadrennial assessments of racial/ethnic issues of Coast Guard members, the Coast Guard requested to participate in this survey.

- *Total DoD*—This category includes all DoD active duty members (excludes Coast Guard members).
- *Service*—The Services include *Army*, *Navy*, *Marine Corps*, and *Air Force*.
- *Paygrade*—The *Enlisted* subgroup includes all enlisted paygrades (E1-E9). The *Enlisted* subgroup is broken into: junior enlisted members (E1 – E4) and senior enlisted members (E5 – E9). The *Officers* subgroup includes warrant officers and commissioned officers (O1-O6). The *Officers* subgroup is broken into: junior officer members (O1 – O3) and senior officer members (O4 – O6). Self-report data are used only to fill in missing administrative data.
- *Gender*—This category is self-explanatory.
- *Deployment*—The categories *Not Deployed Past 12 Months* and *Deployed Past 12 Months* indicate whether or not members were deployed longer than 30 consecutive days during the 12 months before taking the survey.
- *Race/Ethnicity*—Respondents are classified based on self-reported categories consistent with requirements of the *Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity* (1997). *Hispanic* includes anyone marking that they are Spanish/Hispanic/Latino, regardless of how they answered the question on race. *White*, *Black*, *American Indian/Alaska Native (AIAN)*, *Asian*, and *Native Hawaiian/Pacific Islander (NHPI)* each include only those persons marking a single race and who did not report being Spanish/Hispanic/Latino. *Two or More Races* includes persons marking two or more of the races (*White*, *Black*, *Asian*, *American Indian/Alaska Native*, and *Native Hawaiian/Pacific Islander*) and not reporting being Spanish/Hispanic/Latino.
- *Racial/Ethnic Harass./Discrim.*—This group is broken out into three exclusive categories. *Experienced, Labeled* includes those members who indicated experiencing at least one of the racial/ethnic harassment and/or discrimination behaviors in the past 12 months and indicated they considered at least some of the behaviors experienced to be racial/ethnic harassment and/or discrimination. *Experienced, Did Not Label* includes those members who indicated experiencing at least one of the racial/ethnic harassment and/or discrimination behaviors in the past 12 months but did not label the behaviors they experienced as racial/ethnic harassment and/or discrimination. *Did Not Experience* includes those members who did not indicate experiencing any of the racial/ethnic harassment and/or discrimination behaviors in the past 12 months.
- *Service by Race/Ethnicity*—Includes all Service members and provides additional levels of detail for self-reported results by *Race/Ethnicity* (*White* and *Total Minority* which includes *Black*, *Hispanic*, *Asian*, and *Other Race/Ethnicity*). The category *Other Race/Ethnicity* includes members who identified as AIAN, NHPI, or as being of Two or More Races. Due to low representation of these groups, members of these racial/ethnic groups were

included in a single category to increase the probability of generating reportable results.

- *Service by Paygrade*—To provide additional levels of detail for respondents, the tabulation layout also includes three levels of estimates by paygrade, *Enlisted* (E1 – E4, E5 – E9) and *Officers*, excluding W1-W5.
- *Coast Guard*—Includes all Coast Guard members. This category is further broken down into the following subcategories: race/ethnicity (*White* and *Total Minority* which includes *Black*, *Hispanic*, *Asian*, and *Other Race/Ethnicity*), and paygrade (*Enlisted* including E1 – E4, E5 – E9, and *Officers* including O1-O6 and W1-W5).

### ***Survey Methodology***

DMDC conducts cross-component surveys that provide the DoD with accurate assessments of attitudes and opinions of the entire DoD community using standard scientific methods. Specifically, DMDC's survey methodology meets industry standards that are used by government statistical agencies (e.g., the Census Bureau and Bureau of Labor Statistics), private survey organizations, and well-known polling organizations. DMDC adheres to the survey methodology best practices promoted by the American Association for Public Opinion Research (AAPOR).<sup>5</sup>

The survey administration process began on April 15, 2013, with the opening of the survey online. Announcement letters were mailed out on April 15, 2013 to sample members. The announcement letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. The survey was administered via the Web. Data for all Services were collected between April 15 and July 22, 2013.

Single-stage, nonproportional stratified random sampling<sup>6</sup> procedures were used. The sample consisted of 88,816 individuals (including 4,782 Coast Guard members) drawn from the sample frame constructed from DMDC's *ADMF*. Members of the sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not in a Service as of the first day of the survey, April 15, 2013 (0.28% of sample).

---

<sup>5</sup> AAPOR's "Best Practices" state that, "virtually all surveys taken seriously by social scientists, policy makers, and the informed media use some form of random or probability sampling, the methods of which are well grounded in statistical theory and the theory of probability" ([http://aapor.org/Best\\_Practices1/4081.htm#best3](http://aapor.org/Best_Practices1/4081.htm#best3)). DMDC has conducted surveys of the military and DoD community using stratified random sampling for more than 20 years.

<sup>6</sup> In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by race/ethnicity and Service (e.g., all Hispanic Army personnel in one group, all Asian Army personnel in another). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses based on the characteristics of the full active duty population.

Completed surveys (defined as 50% or more of the survey questions asked of all participants are answered, including at least one valid response on the critical questions Q28 and Q31) were received from 18,018 eligible respondents (15,975 DoD and 2,043 Coast Guard). The overall weighted response rate for eligibles, corrected for nonproportional sampling, was 23% (23% for DoD and 44% for Coast Guard.)<sup>7</sup>

Data were weighted using the industry standard three-stage process.<sup>8</sup> This form of weighting produces survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in contrast, are likely to produce biased estimates of population statistics. The three-stage process of weighting consists of the following steps:

- *Adjustment for selection probability*—Probability samples such as the sample for this survey are selected from lists and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.
- *Adjustments for nonresponse*—Some sampled members do not respond to the survey. Continuing the previous example, suppose only half of sample members, 500, completed and returned a survey. Because the unweighted sample size would only be 500, weights are needed to project the sample up to the subgroup population total (10,000). In this case, the base-weighted respondents would sum to only 5,000 weighted respondents. To adjust for nonresponse, the base weights are multiplied by the reciprocal of the nonresponse rate. In this example, the base weight (10) is multiplied by the reciprocal of the nonresponse rate (2) to create a new weight of 20. The weighted sample sums to the subgroup population total of 10,000.

---

<sup>7</sup> Concerns have been expressed to DMDC about whether response rates such as the 23% obtained for 2013 WEOA can provide accurate results. Ultimately, the accuracy of a survey is most dependent on whether the sample used is randomly drawn and representative of the population it is studying. DMDC uses state of the art scientific statistical techniques to draw conclusions from random, representative samples of the active duty population to ensure accuracy of estimations to the full active duty population. As the characteristics of the military population are known, this allows for better accuracy and reduces bias in the estimates compared to civilian populations. DMDC conducts nonresponse analyses on select surveys to identify potential areas of nonresponse bias, minimize impact, and inform future survey iterations.

<sup>8</sup> Details on survey methodology are reported in DMDC (2013b).

This rate should not be used as an official crime index.

- *Adjustment to known population values*—The first of the two previous weighting adjustments are applied according to the demographic groupings used in designing the subgroups for the sample. The second is based on population characteristics that are known to be related to whether a sample person responds to the survey. Because the sample design and adjustments for nonresponse cannot take into account all demographic differences related to who responds to a survey and how they respond, auxiliary information is used to increase the precision of survey estimates. For this reason a final weighting adjustment is computed that reproduces population totals for important demographic groupings related to who responds to a survey and how they might answer the survey. Suppose in our example the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents was 7,000 men and 3,000 women. To reduce this possible bias and reproduce known population totals the weights would be adjusted by 1.21 for men and 0.5 for women that the final weights for men and women would be 24.3 and 10, which would give unbiased estimates of the total and of women and men in the subgroup.

Table 1 (pages 6-7) shows the number of respondents and the portion of total members in each reporting category. Also shown are the estimated number of members and the portion of total members in each reporting category. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.

### ***Tabulation Procedures***

Tabulations<sup>9</sup> for each question from the survey are shown on a set of facing pages. The text of the question and response options are shown at the top of the even-numbered pages. To compress the width of columns in the tables, the response options are shown with a number or letter; then that number or letter is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add up to 100% due to rounding.

Where an item can be presented as an average, that average is shown as a number estimate and in a bar chart. The averages can be quickly scanned for reporting groups differing from other similarly defined groups. Where a true response continuum is available (e.g., number of times trained), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage. When multi-level response scales (e.g., “yes,” “no,” “don’t know”) can be dichotomized, the bar chart represents either the sum of the percentages in multiple

columns (e.g., “no” and “don’t know” summed) or the percentage in one column (e.g., “yes”).

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it reflects item nonresponse, and the table note indicates that “Percent responding are active duty members who answered the question.”

Not all questions will apply to every respondent. Where possible, the survey is programmed to skip respondents over questions that do not apply to them. For example, Q60 (In your opinion, how effective was the training you received in actually reducing/preventing behaviors which might be seen as racial/ethnic harassment and discrimination?) does not apply to those who indicated they did not have training on topics related to racial/ethnic harassment and discrimination in Q58. The footnote for this question indicates, “Percent responding are active duty members who answered the question and who have had training on topics related to racial/ethnic harassment and discrimination (Q58).”

The survey does not always skip questions that do not apply to the respondents. In the tabulations, *Does not apply* responses are typically included in the percentages in the *Percent Responding* column. For example, Q45 asked members to indicate if they knew the outcome of their report of race/ethnicity-related behaviors. Survey participants could indicate that the item does not apply because the investigation was still in process.

Because the survey contains open-ended questions, not all responses are tabulated. For example, Q28r asked members to specify other race/ethnicity-related experiences they experienced during the 12 months prior to taking the survey. Since it is not feasible to tabulate the wide range of responses, the open-ended responses are not tabulated.

### ***Combining Information From Multiple Items***

Tabulations in this volume generally present data for individual survey questions. There are three types of exceptions. The first type of exception is where the results for multiple items are presented on a single set of pages.

- In Q42, members were asked whether they reported the one situation to any military individuals or organizations. The tabulations for this question show percentages who answered Yes to Q42a, Q42b, Q42c, and Q42d, respectively, on one set of pages, to allow comparison among the percentages.

The second exception is where members can provide multiple answers to a single question (e.g., race).

- In Q4, members are asked to mark one or more races. The tabulations show the percentage who responded that they were *White*, *Black*, *American Indian/Alaska Native*, *Asian*, and/or *Native Hawaiian/Other Pacific Islander*. Respondents who indicated more than one race are also shown in the percentage of *More than one race*. For example, if a respondent indicated they were *Asian* and *White*, they were counted in the percentage as *Asian*, *White*, and *More than one race*.

The third exception pertains to constructed composite measures (e.g., scales, indices, and summary variables)<sup>10</sup> described below.

Individual items in each measure are presented first followed by tabulation pages showing composite measure results. Where applicable, Cronbach's coefficient alpha, a measure of scale reliability, is provided for the scale overall and by race in the table notes. Cronbach's coefficient alpha ranges in value from 0 to 1. Values of 0.70 or greater indicate high reliability, meaning that the items are internally consistent.

- *Supervisor Satisfaction*: The composite measure includes survey items on member's agreement that their supervisor can be trusted, treats all assigned people fairly, has very little conflict with people who report to them, evaluates performance fairly, makes work assignments fairly, and gives satisfactory direction (Q11). Scale ranges from 1-5. Higher scores on this measure indicate members more strongly agreed with positive statements about their supervisors (i.e., were more satisfied).<sup>11</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Career Mentoring*: The composite measure includes survey items on members' assessments of the usefulness of their most effective mentors' behaviors that supported members' advancement in the military (Q14a-h, j). Examples include providing opportunities for and advice on challenging assignments and inviting members to observe activities at the mentor's hierarchical level. Scale ranges from 1-5. Higher scores on this measure indicate members perceived the mentor's career mentoring behaviors as more useful in advancing the member's military career.<sup>12</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale. Due to item nonresponse within the scale, the percent responding is lower than the percent responding for the individual items that comprise the scale.

<sup>10</sup> For additional information on the history of the scales included in this Tabulation Volume, see Ormerod, Nye, Joseph, Fitzgerald, and Rock (2010).

<sup>11</sup> This scale was used on the 2005 WEOA, 2006 Workplace and Gender Relations Survey of Active Duty Members (WGRA), 2007 WEOR, 2008 Workplace and Gender Relations Survey of Reserve Component Members (WGRR), 2009 WEOA, 2010 WGRA, 2011 WEOR, 2012 WGRA, and 2012 WGRR.

<sup>12</sup> This scale was used on the 2009 WEOA.

- *Psychosocial Mentoring*: The composite measure includes survey items on members' assessment of the usefulness of their most effective mentor's behaviors that supported members' development of their personal and professional identities (Q14i, k, l). Examples include providing support and encouragement and personal and social guidance. Scale ranges from 1-5. Higher scores on this measure indicate members perceived the mentor's psychosocial mentoring behaviors as more useful in advancing the member's military career.<sup>13</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale. Due to item nonresponse within the scale, the percent responding is lower than the percent responding for the individual items that comprise the scale.
- *Coworker Satisfaction*: The composite measure includes survey items on members' agreement with statements about the amount of conflict among coworkers, coworker work efforts, work group compatibility, helpfulness of coworkers, and relationships with coworkers (Q18). Scale ranges from 1-5. Higher scores on this measure indicate members more strongly agreed with positive statements about their coworkers (i.e., were more satisfied).<sup>14</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Workplace Hostility*: The composite measure includes survey items on the frequency which coworkers or supervisors act in an angry or hostile manner toward them (Q19). Examples include intentionally interfering with other's work performance, taking credit for other's work or ideas, and using insults, sarcasm or gestures to humiliate others. Scale ranges from 1-5. Higher scores on this measure indicate members more frequently perceived hostile behaviors in their workplace.<sup>15</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Work Satisfaction*: The composite measure includes survey items on sense of pride, use of skills, work enjoyment, and the opportunity to acquire valuable skills (Q20). Scale ranges from 1-5. Higher scores on this measure indicate members strongly agreed with positive statements about their work.<sup>16</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Unit Cohesion*: The composite measure includes survey items pertaining to affective ties within a small group that sustain commitment to their peers, their unit and their mission (Q23). Cohesiveness is a group property and

can be viewed as a continuous rather than discrete variable, as degree of cohesiveness varies between groups. Scale ranges from 1-5. Higher scores on this measure indicate greater perceived cohesion.<sup>17</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.

- *General Health:* The General Health scale is designed to provide a self-assessment of overall physical well-being. The four scale items (Q24) were taken from the general health perceptions subscale on the Short-Form Health Survey (SF-36) of the Medical Outcomes Study questionnaire (Ware & Sherbourne, 1992). For the purposes of this report, Q24b-c were reverse-coded. Scale ranges from 1-4. Higher scores on this measure indicate more positive perceptions of health.<sup>18</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Perceived Stress:* To evaluate personal stress levels, members were asked about their emotional experiences/reactions in the month prior to taking the survey (Q26). The measure of perceived stress is a 10-item version of the *Perceived Stress Scale*® (Cohen & Williamson, 1988; Cohen, Kamarck, & Mermelstein, 1983). Items were scored 0 to 4. For the purposes of this report, Q26d, e, g, and h were reverse-coded. Scores are reported as a single figure, which is the sum of the individual scores (range 0 to 40). Higher scores on this measure indicate greater perceived stress.<sup>19</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.
- *Depression Scale:* Depression is a common mood disorder characterized by depressed mood, loss of interest or pleasure, feelings of guilt or low self-worth, disturbed sleep or appetite, low energy, and poor concentration. The first eight questions from the *Patient Health Questionnaire* (PHQ-9) Depression Scale (Spitzer, Kroenke, & Williams, et. al., 1999) were used to measure the presence of depression-related thoughts and behaviors (Q27). The PHQ-9 is a unidimensional measure used for diagnosing depression and assessing its severity (Kroenke, Spitzer, & Williams, 2001). Scores range from 1 to 4. Higher scores on this measure indicate higher levels of depression.<sup>20</sup> All subitems must be endorsed by the respondent in order to be included in the creation of this scale.

- The *Racial/Ethnic Harassment* incident rate is a summary measure reflecting whether members indicated they experienced race/ethnicity-related insensitivity, threats, or actual harm from another military member or a DoD civilian (Q28a-q) and identified at least one behavior experienced to have been racial/ethnic harassment (Q29). Rates were similarly constructed for subcategories of the overall incident rate to include *Offensive Encounters* (Q28a-k, Q29) and *Harm or Threat of Harm* (Q28l-q, Q29).<sup>21</sup>
  - *Offensive Encounters* (Q28a-k, Q29) includes situations in which members believed other DoD (military or civilian) personnel engaged in racially/ethnically insensitive behavior that caused them discomfort or was insulting.
  - *Harm or Threat of Harm* (Q28l-q, Q29) includes perceptions of threat, vandalism, and assault stemming from members' race/ethnicity and caused by DoD (military or civilian) personnel.
- The *Racial/Ethnic Discrimination* incident rate is a summary measure reflecting whether members indicated they experienced race/ethnicity-related discrimination from another military member or a DoD civilian (Q31a-t)<sup>22</sup> and identified at least one behavior experienced to have been racial/ethnic discrimination (Q32a). *Racial/Ethnic Discrimination* consists of 20 items (Q31a-t) that measure five facets (rates) of discrimination: *Assignment/Career Discrimination* (Q31e, j-n, q, and Q32a), *Evaluation Discrimination* (Q31a-d and Q32a), *Training/Test Scores Discrimination* (Q31f-i and Q32a), *Undue Punishment* (Q31o-p and Q32a), and *Providers/Authorities Discrimination* (Q31r-t and Q32a).<sup>23</sup>
  - *Assignment/Career Discrimination* (Q31e, j-n, q, and Q32a) measures the extent to which members believe an aspect of their current assignment or career progression was hampered because of their race/ethnicity.
  - *Evaluation Discrimination* (Q31a-d and Q32a) measures members' perceptions that race/ethnicity influenced some aspect of their performance evaluation.

---

<sup>21</sup> To be included in the rate for *Racial/Ethnic Harassment*, or the contributing factors, a respondent must indicate they experienced at least one of the behaviors and have labeled it as racial/ethnic-related harassment.

<sup>22</sup> For the individual Q31 items, only responses of "yes, and my race/ethnicity was a factor" were counted.

<sup>23</sup> To be included in the rate for *Racial/Ethnic Discrimination*, or the contributing factors, a respondent must indicate they experienced at least one of the behaviors and have labeled it as racial/ethnic-related discrimination.

- *Training/Test Scores Discrimination* (Q31f-l and Q32a) measures the extent to which members believed their race/ethnicity influenced the availability of training and the assignment of training scores/grades.
- *Undue Punishment* (Q31o-p and Q32a) measures members' perceptions that race/ethnicity influenced whether and how they were punished.
- *Providers/Authorities Discrimination* (Q31r-t and Q32a) measures the extent to which members believed their race/ethnicity influenced the availability and quality of services provided by DoD authorities and agencies.
- *Racial/Ethnic Harassment/Discrimination*: An overall measure reflecting whether members indicated they experienced race/ethnicity-related insensitivity, threats or actual harm, or discrimination from another military member or a DoD civilian and considered at least one behavior experienced to have been racial/ethnic harassment or discrimination (Q28a-q, Q29, Q31a-t, and Q32a).<sup>24</sup>
- *Combinations of Race/Ethnicity-Related Harassment and Discrimination Behaviors*: A summary measure reflecting whether members indicated they experienced only race/ethnicity-related harassment, discrimination, both, or neither and considered at least one behavior experienced to have been racial/ethnic harassment and/or discrimination (Q28a-q, Q29, Q31a-t, and Q32a).
- *Any Incident*: A summary indicator reflecting whether members indicated they experienced race/ethnicity-related insensitivity, threats or actual harm, or discrimination from another military member or a DoD civilian regardless of whether they considered any of their experiences to have been racial/ethnic harassment or discrimination (Q28a-q and Q31a-t).

### **Margins of Error**

The complex sample design required weighting to produce population estimates (e.g., percent Hispanic).<sup>25</sup> Because of the weighting, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN<sup>®</sup> PROC DESCRIPT, (Research Triangle Institute, Inc., 2004).

---

<sup>24</sup> The purpose of the *Racial/Ethnic Harassment/Discrimination Rate* is to provide the policy offices and Department with an overall estimate of active duty members who experienced behaviors aligned with racial/ethnic harassment and/or discrimination. This rate should not be used as an official crime index.

<sup>25</sup> As a result of differential weighting, only certain statistical software procedures, such as SUDAAN, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

<sup>®</sup> Registered 2004 by Research Triangle Institute, P.O. Box 12194, Research Triangle Park, NC 27709-2194.

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters (such as percentages or means) and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (Max ME) for each reporting category is shown. That is, the tabulation volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

The following reporting conventions are used:

- “0” indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is *Not Reportable* and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 15), or relative standard error (greater than 0.225),
- NA indicates the question was *Not Applicable* because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

Note. Percent responding are active duty members who answered the question and who had at least one mentor (Q12). The scale ranges from 1 to 5. A higher score indicates greater usefulness of career mentoring behaviors. The overall Cronbach's alpha = 0.96 (White = 0.96, Black = 0.96, Hispanic = 0.96, Asian = 0.96, and Other Race/Ethnicity = 0.96). Cronbach's coefficient alpha ranges in values from 0 to 1. Values of 0.70 or greater indicate high reliability, meaning that the items are internally consistent.

Note. Percent responding are active duty members who answered the questions. Incident rates indicate the percentage of active duty members who experienced at least one of the behaviors during the 12 months prior to responding to the survey AND who indicated they considered at least some of the behaviors experienced to be racial/ethnic harassment (Q28/Q29). The overall Cronbach's alpha without the inclusion of Q29 = 0.95 (White = 0.95, Black = 0.93, Hispanic = 0.94, Asian = 0.95, and Other Race/Ethnicity = 0.95). Cronbach's coefficient alpha ranges in values from 0 to 1. Values of 0.70 or greater indicate high reliability, meaning that the items are internally consistent. 2013 WEOA includes Q28i "Made offensive remarks about your accent or language skills?," Q28m "Hazed you (for example, experienced forced behaviors that were cruel, abusive, oppressive, or harmful) because of your race/ethnicity?," and Q28n "Bullied you (for example, experienced verbal or physical behaviors that were threatening, humiliating, or intimidating) because of your race/ethnicity?" which are new items.

**29. Racial/Ethnic Harassment:** Constructed from Q28a-q and Q29. Racial/Ethnic Harassment reflects whether Service members indicated that they personally experienced race/ethnicity-related insensitivity, threats, or actual harm, from another military member or a DoD civilian.

Note. Percent responding are active duty members who answered the questions. Incident rates indicate the percentage of active duty members who experienced at least one of the behaviors during the 12 months prior to responding to the survey AND who indicated they considered at least some of the behaviors experienced to be racial/ethnic discrimination (Q31/32a). The overall Cronbach's alpha without the inclusion of Q32a = 0.92 (White = 0.94, Black = 0.90, Hispanic = 0.90, Asian = 0.92, and Other Race/Ethnicity = 0.94). Cronbach's coefficient alpha ranges in values from 0 to 1. Values of 0.70 or greater indicate high reliability, meaning that the items are internally consistent.

## PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

In accordance with the Privacy Act, this notice informs you of the purpose of the survey and how the findings of these surveys will be used. It also provides information about the Privacy Act and informed consent.

Please read it carefully.

**AUTHORITY:** United States Code Sections 136, 481, 1782, and 2358. NDAA-FY2003. 14 USC 1.

**PRINCIPAL PURPOSE:** Information collected in this survey will be used to research attitudes and perceptions about racial and ethnic issues including harassment and discrimination and identify areas where improvements are needed. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Department of Defense (DoD), Department of Homeland Security (DHS), each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. Data could be used in future research. Datasets without any identifying information may be analyzed by researchers outside of DMDC. Briefings and reports on results from these surveys will be posted on the Web: <http://www.dmdc.osd.mil/surveys/>

**ROUTINE USES:** None.

**DISCLOSURE:** Providing information on this survey is voluntary. Most people can complete the survey in 16-30 minutes. There is no penalty or loss of benefits to which you are entitled if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, the survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. In no case will individual identifiable survey responses be reported. If you answer any items and indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

**SURVEY ELIGIBILITY AND POTENTIAL BENEFITS:** DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (for example, gender, race and ethnicity, and grade). This is your chance to be heard on issues that directly affect you, including activation/deployment experience, retention, and reunion and reintegration support. While there is no direct benefit for your individual participation, your responses on this survey ***make a difference***.

**STATEMENT OF RISK:** The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses. Survey data may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

**If you are a victim of racial/ethnic harassment, or a person who wishes to prevent or respond to it, you may want to contact your Service's local equal opportunity office. To reach a hotline for your Service call:**

## FREQUENTLY ASKED QUESTIONS

### What is Defense Manpower Data Center (DMDC)?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in the Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass, and Human Relations Surveys for the DoD. To learn more, visit the DMDC Web site.

<http://www.dmdc.osd.mil/>

### What is the Human Relations Survey Program?

- Human Relations Survey is a DoD personnel program that features Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable the DoD to regularly assess the attitudes and opinions of the DoD community – active duty and Reserve component members, and DoD civilian employees – on the full range of personnel issues.

### How do I know this is an official, approved DoD survey?

- In accordance with DoD Instruction 8910.01, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# P&R(QD)1946, expiring 03/31/2014.

### How did you pick me?

- DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., gender, race and ethnicity, and grade).

### Why should I participate?

- This is your chance to be heard on issues that directly affect you, including satisfaction with aspects of military life, satisfaction with your workplace environment and the prevalence of racial/ethnic harassment/discrimination.
- Your responses on this survey ***make a difference***.

### What is [weo-survey@mail.mil](mailto:weo-survey@mail.mil)?

- The official e-mail address for communicating with active duty members about Human Relations Survey surveys. "weo-survey@mail.mil" is short for Workplace Equal Opportunity Survey.

### Why am I being asked to use the Web?

- Web administration enables us to get survey results to senior Defense leaders faster.

### Why are you using a .net instead of a .mil domain to field your survey?

- The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations company. The survey collection tool starts on a .mil site within DMDC. Once you enter your ticket number, you are redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a non-government computer.

**Do I have to answer all questions?**

- No, it is not necessary to answer every question. Within the survey screen, you have four control buttons: *Next Page* (→), *Previous Page* (←), *Clear Responses*, and *Save and Return Later*. Use these buttons to navigate through the survey or skip questions. Use *Save and Return Later* to give yourself flexibility to complete the survey at a convenient time. When you return to the survey Web site, enter your Ticket Number to get to the place in the survey where you had stopped.

**Why does the survey ask personal questions?**

- DMDC reports overall results, as well as by other characteristics, such as location, gender, etc. To complete these analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

**Will my answers be kept private?**

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- All data will be reported in the aggregate and no individual data will be reported.
- We encourage you to safeguard your Ticket Number to prevent unauthorized access to your survey. In addition, to ensure your privacy, be aware of the environment in which you take the survey (e.g., take the survey when no one else is home, take care to not leave the survey unattended).

**Can I withdraw my answers once I have started the survey?**

- If you wish to withdraw your answers, please notify the Survey Processing Center prior to July 17, 2013 by sending an e-mail to [weo-survey@mail.mil](mailto:weo-survey@mail.mil) or calling, toll-free 1-800-881-5307. Include your name, Ticket Number and PIN.

**Will I ever see the results of the survey?**
